## Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-5 and 8-15 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Kinoshita et al. (USP 5,817,526) or Howard et al. (USP 5,408,535).

See the appropriate paragraph of the 6/9/05 Office action.

The 9/12/05 amendments have added new limitations specifying scanner scans the test device creating a digital image which is digitally analyzed. The cited prior art teaches scanning of the test device and subsequent image analysis that is indistinguishable from that claimed here.

## Response to Arguments

Applicant's arguments filed 9/12/05 have been fully considered but they are not persuasive.

Applicants' remarks concerning the 35 USC 112 second paragraph issues were convincing and these rejections have been vacated.

Applicants' traverse the rejection over Kinoshita et al. stating the instant invention holds one or more test devices and the taught microplate(10) is not a template but rather a test device. The Office maintains Kinoshita et al. meets the claims by holding one test device and the instant claim language does not exclude the integration of the taught test device/template.

Applicants' traverse the rejections of Howard et al. stating no

"windows" are taught and the means plus function structures of claim 10 are not taught. The claimed "window" is broad enough to be read on any supporting surface on which the test device is scanned and is met by Howard et al. The remainder of Applicants' remarks are not fully understood. Howard et al. teach means to accomplish all of the claimed functions such as a controller using software to direct analysis, a camera for scanning and a means for holding the test device.

## Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
